Things can seem bleak when we see all the kinds of suffering going on in humanity, perhaps even among our own family members or neighbors. But sometimes these very circumstances spur individuals to find new ways to help and heal.

Christian Science gave me a new view of God that I'd not had before: a view of God as Love itself, divine Love that loved me fully.

I also discovered that this loving God was not the source of my troubles (which were many) but the solution to them. My life began to improve quickly after that and I became a healthy man after many years of suffering.

Phillip Hockley is an international speaker and practitioner of Christian Science healing and a member of the Christian Science Board of Lectureship.
